Closing Prayer

Luisa, my mother in the Fiat of Sanctification, deposit in me these praises, which Jesus so lovingly gave you, so that immersed in their virtues, graces and merits, I may be enveloped in all the Power, Wisdom and Love of the Eternal Fiat to live in Its Rounds in Creation, Redemption and Sanctification, for the Glory of the Father's Will that His Kingdom come on earth as in Heaven. May the Fiat that reigned in you reign in me because of you! Amen!

Renewed and magnetized in Luisa

“Little daughter of My Will, the surprises, novelties, secrets, attractions that you possess are without number. He who enters is left renewed, so magnetized that he cannot desire to depart from there: He feels the Divine Empire invest him and the celestial balsam, which changing his nature, makes him rise again to a new Life. Now, it behooves you to know that My Divine Will bequeaths such an Empire to the creature who lives in It; that the creature performing its smallest acts experiences its dominion ... the creature carries this Empire to every heart where it may rule and dominate each individual. Our Will, therefore, feeling Its Empire in the creature's act, feels Itself constrained to grant whatever It wants in

the act it performs: if it wants to love, by means of its act it makes Us Love and makes Us grant Love; if it wants Our Will to reign in souls, by means of Its Empire it makes us go so far as to intercede (to each other) in order to obtain this request. An act in Our Will does not stop. It says to Us, 'I am an act of Yours, You must grant me what I desire'. One can say that it wields Our Power, duplicates It, multiplies It and dominating does not ask but rather takes what its act wants. Moreover, in Our Will We, Ourselves, do not want that there be acts dissimilar to Ours. Hence it is We who constrain Ourselves to rule and dominate." V35: 15/8/37
